Arun Kumar Bhardwaj

Expo & React Native Developer

Chandigarh, India | bhardwajarun38@gmail.com | 088590 99380 | Portfolio | LinkedIn

Summary

React Native & Expo Developer with 3 years 10 months of full-time experience (5+ years total including freelance), delivering cross-platform iOS and Android apps with TypeScript, Redux/state management, REST APIs, and CI/CD release pipelines. Strong collaborator who mentors peers, communicates clearly with stakeholders, and owns end-to-end feature delivery from architecture through App Store and Play Store releases.

Experience

Software Engineer, ITechnolabs Software Pvt Ltd. – Mohali, Punjab Oct 2024 – present

- Directed cross-platform React Native/Expo feature delivery for iOS and Android, owning UI architecture, navigation, and Redux/state management.
- Architected third-party SDK integrations including Stripe payments, Google Maps, real-time chat, and push notifications via REST APIs.
- Owned EAS (Expo Application Services) CI/CD build and release pipelines for production iOS and Android deployments.
- Resolved critical production bugs and optimized API integrations, sustaining 99.9% crash-free performance across releases.

Freelance Next.js Developer, Asterism Advisory May 2023 – Sept 2024

- Built and deployed a responsive marketing landing page with Next.js, Tailwind CSS, TypeScript, and Vercel.
- Incorporated Resend email API with IP-based rate limiting to secure contact forms against spam and bot abuse.
- Configured Sanity.io headless CMS for content management and collaborated with stakeholders on UX/content requirements.

Software Development Engineer I, Veative Labs Pvt. Ltd. – Noida, U.P. Jan 2023 – Apr 2023

- Guided development of an interactive career-readiness EdTech mobile platform helping young learners discover workplace skills.
- Engineered real-time video calling with GetStream.io SDK, enabling 1:1 and group virtual learning sessions on React Native.
- Partnered directly with clients to translate business requirements into technical specs, driving UI architecture and REST API integration decisions.

React Native Developer, SheThink Pvt. Ltd. – Indore, M.P. Apr 2021 – Oct 2022

- Owned end-to-end engineering of multiple client and in-house cross-platform React Native apps for iOS and Android.
- Managed full App Store and Play Store release process for 2 client apps, including asset preparation, submission, and deployment governance.
- Collaborated with designers and stakeholders on UI/UX implementation, state management, and REST API integrations.

Projects

Mergata – Play Store · App Store

- Built a community app for the Albanian diaspora covering border wait times, rideshares, jobs, and housing with React Native and Expo.
- Implemented geofencing in Expo to detect proximity to border crossings and prompt travelers for real-time wait-time reports.
- Integrated interactive maps visualizing border checkpoints, live queue lengths, and crowdsourced crossing-time estimates.

Swivics – Customer App · Driver App

- Architected the corporate mobility platform in Expo with automated scheduling and recurring ride management.
- Designed a resilient background location service that bypasses Android Doze mode and OEM battery optimizations, achieving reliable tracking uptime.
- Created smooth map animations via custom coordinate interpolation for driver markers, and resolved Always Allow location permission failures across Samsung, Xiaomi, and Oppo devices.

WedSuite

- Directed WedSuite wedding planning app with React Native, Expo, and TypeScript for iOS and Android.
- Built an AI Assistant using Server-Sent Events (SSE) for real-time streaming, powered by RAG and a Vector DB.
- Configured RevenueCat for In-App Purchases (IAP) and subscription plans; delivered budget tracking, guest RSVP, timeline, and calendar sync modules.

Mezzo

- Delivered Mezzo, a real-time e-scooter mobility app built with React Native and Expo.
- Designed WebSocket connections with Teltonika IoT devices for live scooter telemetry and status tracking.
- Built Google Maps live location tracking with route polylines and geofencing; enabled Stripe wallet top-ups, pay-as-you-go payments, and push notifications.

POV Social Media App

- Constructed Instagram-like Reels & Stories using HLS video streaming and prefetching for zero-latency playback.
- Deployed FFmpeg compression and a background upload service for large media files on React Native.
- Incorporated IMGLY SDK for editing, WebSockets for real-time chat, and Firebase (FCM) push notifications.

Skills

Mobile Development: React Native, Expo, EAS, React Navigation, Redux, Zustand, Context API, Custom Native Modules, Config Plugins, iOS, Android, Xcode, Android Studio, Push Notifications, Deep Linking

Languages & Web: TypeScript, JavaScript, Next.js, React, HTML5, CSS3, Tailwind CSS, Node.js

Developer Tools & Testing: Git, GitHub, pnpm, Bun, Jest, CI/CD, Agile, Scrum

Backend & Databases: REST APIs, GraphQL, Firebase, Supabase, Convex, WebSockets, Stripe

Soft Skills: Mentoring, Collaboration, Communication, Problem Solving, Client Stakeholder Management

AI-Assisted Development: Cursor, Claude Code, GitHub Copilot

Education

MCA, Computer Applications – Graphic Era Deemed to be University, Dehradun, India 2019 – 2021

BCA, Computer Applications – Graphic Era Deemed to be University, Dehradun, India 2016 – 2019
